# A Prayer for Customer Service Professionals

Today, we pray especially for those who serve as customer service professionals.

We celebrate that they have the opportunity to model Christ to others by being a servant to those in need. We thank you that they can have friendships with co-workers and know they are not alone in the task you have given them.

We lament with them that though they are tasked with providing great customer service, there can be conflicting expectations from their customers and their management - causing confusion, frustration, and exhaustion.

We repent for the ways customer service jobs are often overworked and overlooked. As your people, may we learn to be people of gratefulness and gentleness toward those who are working these frontline jobs. Help business owners and managers to provide workplaces that meet the needs of their employees, so that as they serve, they can thrive.

We ask, O Lord, that those in the customer service industry might be given divine patience as they seek to serve people. May they see each person they serve as an image bearer of God.

May the fruit of their labor be used for your kingdom here on Earth. May the Spirit's fruit in them be a light to all they come in contact with. May the skills they develop be used in your church and for your glory.  Amen
