YOU KNOW THE WAY

You know what's best for me
Even when I cannot see what's in front of me
Deep the in the night my heart will remember You know the way

I will trust your plan
I will lift my hands
For you understand every circumstance
Nothing left to chance when I'm in your hands
Because You're God

You know the way
No matter what i face
You know the way
I won't be afraid
You know the way
Whatever comes today
